

Quinton Parish Council: Road Closures

Updated: **Tue, 9 Aug 2022**

Works by HS2 affecting nearly all the roads leading to and from Quinton and means there are far more disruptions than usual.

Works by Transport for Bucks see the issue of a **Temporary Traffic Restriction Order** notifying a closure and showing diversion routes

The **TTRO** can last for several months; the exact start date only confirmed later. The road may reopen only to close again later for more works under the same TTRO which may be extended.

The HS2 Act restricts the local authority powers and issues its AWN notices. These are repeated by Bucks via a TTRO
Utilities can close a road without notice for emergency works

All current and upcoming road closures can be viewed locally on a national database at: <https://one.network/>

If you want to look further than the current day you may have to create a free account.

These notices often show long diversions to avoid village roads but locals would know the best practical routes,

The multiplicity of notices can be confusing and they all allow long periods for completion which are often not needed

NEW NOTICES

Road	Date	Times	Restriction	Other Information
